

## Mockup Revisions

### Desktop Edits:

- Extend the red box in the characters section to touch the edge
- Watch the alignment of the top of the text and images in the development section
- Decrease spacing between the footer and the other don't starve images at the bottom
- Put in the rest of the images
- Change the number of images in the development section
- Cut out the last paragraph in the gameplay section and decrease the amount of images

### Mobile:

- Look at the don't starve website's mobile version (use it as a guide)
- Change image and text relationship (above one another rather than side by side)
- Decrease the number of images so viewers aren't scrolling forever

You're doing great, keep up the good work!!! 🍌🍌🍌🍌🍌
