Project Title: Don't Starve (Game)

I'd like to build this website as multiple pages in order to showcase different elements of the game without the user having to scroll down for a very long time. Typical site navigation at the top allowing the user to see the other accessible pages. Wikipedia has a good amount of content on this game.

- **Home Page/Intro-** Introduce a summary of the plot of the game (first part of wiki) and include the image on wiki or that shows the title of the game.
- **Gameplay-** Summarize how the game works with imagery of gameplay (google images)
- **Characters-** Show the different characters you can play (google images)
- **Development-** Talk about the conception and design (maybe include images)
- **Downloadable Content-** Showcase the different version of Don't Starve you can play (*Don't Starve: Reign of Giants, Don't Starve Together, etc.*) – images of the other games (just title is fine)
